MATERIAL SAFETY DATA SHEET

Petrol Injector Cleaner

1. PRODUCT AND COMPANY IDENTIFICATION

Product Name: Petrol Injector Cleaner
Product Details: Fuel Addictive
Manufacturer/Supplier: OILFLOW cc
562 Crocker Road, Wadeville, Germiston, South Africa
1422
Health Emergency Telephone: 011 827 5848
Oilflow Website: info@oilflow.co.za
Oilflow Website: www.oilflow.co.za

2. HAZARD IDENTIFICATION

2.1 Classification

May cause lung damage if swallowed
Keep away from food, drink and animal feeding stuffs.
If swallowed seek medical advice immediately and show the container or label.
Dispose of this material and its contents to hazardous or special waste collection point

2.2 Labelling

Hazard designation: Harmful and Flammable
Contains- Distillates , hydrotreated light, kerosine- unspecified.

3. COMPOSITION/INFORMATION ON THE COMPONENTS

Description: Mixture of following substances and cleaning components.

Components in Product

Component Name	Concentration (%)
Solvent	90 – 99
Performance additives	05- 10

4. FIRST AID MEASURES AND RESPONSE

Eyes: If splashed on eyes, hold the eyelids apart and pass running water for 15 minutes (S26).
If irritation occurs, contact the physician, and have product or label at hand. (P101)

Skin: If skin contact occurs, remove contaminated clothing and pass running water to affected skin.

Ingestion: If swallowed, do not induce vomiting, rinse mouth and give water to sip, if vomiting persists, bend head closer to hips to avoid vomitus entry into lungs.
Seek medical advice immediately and show this MSDS (R22) (S46).

Inhalation: Retreat to get fresh air immediately. Seek medical attention if rapid recovery does not occur.

5. FIRE FIGHTING MEASURES

PO Box 14527, Wadeville 1422

MATERIAL SAFETY DATA SHEET

Petrol Injector Cleaner

Suitable extinguishing media:	Water spray Alcohol-resistant foam Dry chemical Carbon dioxide (CO ₂)
Unsuitable extinguishing media:	High volume water jet
Specific hazards during firefighting:	Do not use a solid water stream as it may scatter and spread fire. Flash back possible over considerable distance. Vapors may form explosive mixtures with air. Exposure to combustion products may be a hazard to health.
Hazardous combustion products:	Carbon oxides
Specific extinguishing methods:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is safe to do so. Evacuate area.
Special protective equipment for fire-fighters:	In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.

6. ACCIDENTAL RELEASE MEASURES

Person-related safety precautions:	Avoid contact with eyes (S25). Ensure adequate ventilation (S51). Keep away from sources of ignition (S16). When using, do not smoke (S21)
Measures for environmental protection:	Prevent undiluted product from reaching sewage system.
Measures for cleaning / collecting:	Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust) and dispose according to local regulations.

7. HANDLING AND STORAGE

Advice on safe handling:	Do not breathe vapours or spray mist. Keep out of reach of children (S02) Do not swallow. Do not get in eyes. Avoid prolonged or repeated contact with skin. Handle in accordance with good industrial hygiene and safety practice. Non-sparking tools should be used. Keep container tightly closed (S07). Keep away from heat and sources of ignition (S16).

MATERIAL SAFETY DATA SHEET

Petrol Injector Cleaner

Take precautionary measures against static discharges.
Take care to prevent spills, waste and minimize release to the environment.

Conditions for safe storage :

Keep in properly labelled containers.
Keep tightly closed.
Keep in a cool, well-ventilated place.
Store in accordance with the national regulations.
Keep away from heat and sources of ignition.
Do not store in direct sunlight

Materials to avoid :

Do not store with the following product types:
Strong oxidizing agents
Organic peroxides Flammable solids
Pyrophoric liquids
Pyrophoric solids
Self-heating substances and mixtures
Substances and mixtures which in contact with water emit flammable gases
Explosives Gases

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

National Occupational Exposure limits

	TWA.		STEL.		NOTICES
	ppm	mg/m3	ppm.	mg/m3 .	
Ethanol	1000		1900		- - -

TWA – The time weighted average airborne conc. over an eight- hour working day, for a five-day working week over an entire working life.

STEL (Short Term Exposure Limit) -The average airborne concentration over a 15 minute period which should not be exceeded at any time during a normal eight-hour workday.

These Exposure Standards are guides to be used in the control of occupational health hazards.

General protective and hygienic measures: General security measures have to be taken when handling chemicals.

Avoid contact with eyes (S25).

In case of contact with eyes, rinse immediately with plenty of water and seek medical advice (S26).

9. PHYSICAL AND CHEMICAL PROPERTIES

PO Box 14527, Wadeville 1422
562 Crocker Road
Wadeville
Germiston
South Africa

Tel: (011) 827-5848
Fax: (011) 827-5832

MATERIAL SAFETY DATA SHEET

Petrol Injector Cleaner

Physical State	Liquid
Colour	Blue
Odour	of Solvents
pH	6 - 7.5
Boiling Range/Point (°C)	78 - 100
Flash Point (PMCC) (°C)	75
Solubility in Water (kg/m3)	Insoluble
Auto-flammability (°C)	No Limits available

10. STABILITY AND REACTIVITY

Stability	Stable when stored and used as directed.
Conditions to Avoid	High temperatures and sources of ignition.
Materials to Avoid	Oxidizing agents
Hazardous Decomposition Products	Oxides of carbon and nitrogen smoke and toxic fumes.

11. TOXICOLOGICAL INFORMATION

No adverse health effects expected if product is handled in accordance with this Safety Data Sheets.

Acute Effects	When inhaled, may irritate the mucous membrane. Contact to skin may result in slight irritation to sensitive skin Swallowing may result in nausea, vomiting and gut irritation.
---------------	---

12. ECOLOGICAL INFORMATION

Mobility	No information available.
Persistence/Degradability	The product is expected to biodegrade very slowly with time and no further information is available.

13. DISPOSAL

Person conducting disposal should wear appropriate PPE.

Product Disposal	Dispose of in accordance with all applicable local and national regulations.
Container Disposal	An approved drum recycler can recycle containers.

MATERIAL SAFETY DATA SHEET

Petrol Injector Cleaner

14. TRANSPORT INFORMATION

UN No.:	1170
Dangerous Goods Class	3
Hazchem Code	3Y
Packing Group	III

15. REGULATORY INFORMATION

This product is not subjected to the following international agreements

The STOCKHOLM CONVENTION
The ROTTERDAM CONVENTION
BASEL CONVENTION(Hazardous Waste)

Code letter and hazard designation of product: F – Flammable

Risk phrases: R10 Flammable.
R22 Harmful if swallowed.

Safety phrases: S02 Keep out of the reach of children.
S07 Keep container tightly closed.
S15 Keep away from heat.
S16 Keep away from sources of ignition.
S21 When using, do not smoke.
S25 Avoid contact with eyes.
S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice,
S46 If swallowed, seek medical advice immediately and show this container or label.
S51 Use only in well ventilated areas.

16. OTHER INFORMATION

Date of Issue: 10 May 2022

To the best of our knowledge, the information contained herein is accurate. Although certain hazards may be described we cannot predict that these are the only hazards, or combination of hazards, that may exist in a workplace. This MSDS, therefore, forms a component only of a risk assessment carried out by, or on behalf of, the user.
