TECHNICAL DATA SHEET

Fleetline Engine Flush

PRODUCT DESCRIPTION

Oilflow Engine Flush is a high-quality product consisting of highly effective cleaning detergents which is to be used before regular oil changes. It removes sludge, gums, varnish, and any contaminants. It cleans the oil system for maximum performance and can be used for all petrol, diesel, and LPG engines, with or without turbochargers. It is also compatible with all mineral, semi synthetic and full synthetic motor oil.

BENEFITS

- It cleans and flushes the engine with high effective cleaning agents.
- Eliminates gums, varnish and sludge.
- Easy removal of contaminants like carbon deposits, soot and liquids.
- Reduces fuel consumption.
- Reduces exhaust emissions by restoring engine conditions.
- Enables new oil to perform optimally.

METHOD OF USE

- Before changing oil, pour the contents of one bottle in the crank case of a warm engine
- Let the engine run for 15 minutes, alternatively at low and high rpm
- Drain the oil from the crank case
- Replace oil filter
- Refill crank case with recommended fresh motor oil

TYPICAL PROPERTIES

Density 0.874
Flash point 200°C
