## TECHNICAL DATA SHEET

### Fleetline Radiator Flush

#### PRODUCT DESCRIPTION

Fleetline radiator Flush is used to clean and remove contamination within the cooling system. It is suitable for all petrol, diesel and LPG engines cooling systems. Mixable with water, cooling fluids and conventional antifreeze.

#### BENEFITS

- Improves cooling system efficiency
- Cleans entire cooling system in one application
- Removes sludge, rust and other deposits.
- Prevents build up of acid contamination.

#### METHOD OF USE

- Shake bottle before use. When the engine is off and cold, pour contents of bottle into radiator or expansion tank.
- Turn heating on maximum position, start the engine at idle speed or drive for 15 minutes.
- Turn off the engine and when it is cold, empty and flush radiator with fresh water until water runs clear. Refill with recommended coolant

#### TYPICAL CHARACTERISTICS

- Physical State           Liquid
- Colour                    Brown
- Odour                     Mild
- Solubility in water      Soluble

PACKAGE SIZE	375ml
