TECHNICAL DATA SHEET

Fleetline Stop Smoke

PRODUCT DESCRIPTION

Stop Smoke is designed to reduce smoke emission and oil consumption of petrol and diesel engines. It contains active high shear long chain polymers which provide a seal for worn pistons and rings to stop blow by. It also retains the flow characteristics of the oil in hot or cold weather. Stop Smoke is extremely sheer stable, meaning it does not lose its viscosity at elevated operating temperatures which is a common symptom in worn engines. It is compatible with synthetic and mineral oils and safe to use in with catalytic converters.

BENEFITS

- Prevents blue smoke and oil mist.
- Superior protection of moving parts.
- Superior wear protection.
- Reduces oil consumption.
- Robust low temperature properties.

KEY PROPERTIES

Density 20 °C	kg/L	0.895
Viscosity@ 100	Cst	220
Flash point	°C	135min

PACKAGE SIZE	20 Litres	210 Litres	1000 Litres
Stop Smoke	✓	✓	✓
