TECHNICAL DATA SHEET BLIXEM SOLAR PANEL CLEANER

PRODUCT DESCRIPTION

Excellent ready to use and powerful product for cleaning solar panels. It has very high absorption properties, does not leave any residual, and provides long, grease-free solar panels.

APPLICATION

It is formulated to eliminate insects, silicone, grease, filth, oil stains, and streaks brought on by environmental contaminants.

BENEFITS

- Effortlessly removes dirt and bug remnants.
- Does not leave residuals.
- High dissolving properties.
- Cleansing and degreasing foam.
- Superior cleaning performance on variety of soils.

DIRECTION FOR USE

- Turn down your solar panel system to protect your safety and prevent equipment damage.
- To remove any material, such as dirt and dust, from the surface of your unclean solar panels, use a soft brush.
- Pour the ready to use Blixem solar panel cleaner on the solar panels.
- Use a typical garden hose and water when cleaning your panels with water. As they have the potential to cause cracks or other system damage, you should avoid utilizing a high-pressure hose that you may use for tasks like power washing your house.
- Monitor output after cleaning is complete to determine the impact cleaning has had on efficiency.

PHYSICAL PROPERTIES

Density 20 °C	kg/L	0.926
Ph	N/A	4
Flash point C.O.C.	°C	Non flammable
Colour	N/A	Blue
Odour	N/A	Alcoholic odour
